Communitarian thought suggests that
 social relationships shape personal
 goals and preferences. In this sense, the
 social goals of the community become
 the personal goals of the individual.

Il risultato è che, anche se non gli
spetta l'attribuzione della responsa-
bilità, il governo, per il suo ruolo
politico di regolatore economico, non è
più che un attore di secondo piano. In
Italia, la presidenza della potente
autorità finanziaria è detenuta da
chi non ha alcun ruolo politico. Il
sistema, che si è evoluto nel corso
degli anni, è un sistema di governo
della finanza che non ha mai avuto
un volto.
